We believe that the Church is doing well considering the times. Special thanks to the clergy staff! On the questions we marked 'don't know' a suggestion. It might be worth considering making some changes or additions to the monthly newsletter so that those items are reported. Considering the time we are in, it may be important that the newsletter become more 'news like'.

Don't have internet

It would be encouraging to hear about the specific things that Faith, as a congregation, is doing/has done for the most vulnerable in our community. Also, if there is a specific need, do let us know about it. I liked knowing that our sewing saints were making masks and gowns. IMHO, the weeding and pruning etc done to our buildings are nice but not really serving the Body of Christ and the community. Would rather see us physically and financially giving sacrificially to others instead of a building or a constitution.

at Home Communion

In the spring it felt okay. Now heading into winter I feel disjointed.

A few months ago it was easy to get the service online. Now it is too complicated for me. I do not use Facebook or YouTube

Pastor as per our conversation More personal contact with congregational member that have health Issues and or have no internet. Contact with Pastor Doug Write more articles in the Monthly News letter about Questions 4 through 9 what are we doing with youth , Studies, vulnerable population, Build and property Issues, and congregation communications.

The church seems well run. I especially appreciate and admire the attention Pastor Doug gives to caring for the people of his congregation through phone calls, visits, e-mails, etc.

I think it is important to have online videos, sermons, story time for kids. We had just started Sunday school and then had to stop right as the kids were getting comfortable. Is there a way to do distance learning for Sunday school, just like school, dance companies, and many occupations are doing?

Love the podcasts! Thankful for connections through Virtual Urraco. What are we doing to serve our vulnerable populations? Great job with communicating via email and Facebook

There has been talk about what needs done with the grounds but nothing is being done. I really think we need some boots on the ground.

I seriously miss seeing my friends at church. I do enjoy my Thursday office time, time with the Pastors and time with Lily.

August Comments

re "supporting public health efforts": NOT the church's job! other: How impactful are constitutional changes--what's the difference? Hope we can get back to normal before we go back to the desert.

Grateful for Mary's keeping up with members (especially visits)

I love our church is a Christ teaching church with many opportunities to serve Him. I appreciate Doug leading us with insights on the bible that I never thought of. I'm grateful and thankful we have him.

Our church is doing a good job during a difficult challenging time.

I feel that the efforts made by Faith staff to meet the needs of the congregation and community have been worthy of praise. I know there will be people or organizations that have "slipped through the cracks" . Hopefully this survey will be helpful in identifying them.

August Comments

re "youth&family/Sunday School": More adult Sunday school, dedicated youth ministry where the leader is not a do all for everything else that needs to be done in the church. re "Bible study": once COVID19 subsides it would be nice to have home bible study along the lines of Stephen Ministries guideline at selected geographical locations in Shelton. other: have you thought of a volunteer coordinator who arranges and coordinates volunteers for home visits/church events/workshops/phone answering/janitorialing/set-up and cleanup for potlucks, meetings, etc.?

Love the work on all the digital resources for worship! Everything looks great and seems to be working!

Less music during worship. Children message during service may need to be reconsidered.

Feel comfortable with all efforts of Faith Lutheran, Pr. Doug and staff to keep us cared for. Praying for our country, without bringing up politics, is the right path.

We have especially loved the podcasts, all the added talents of the musicians and the Piggies...;-)
